Description:

The player is a recruit in the army, trying to make it through the grueling courses of Boot Camp. He is challenged physically and mentally by the toughest drill sargeant in the barracks. The drill sargeant shows no mercy, barking out orders and insulting the recruits to provoke them into action. In the player's attempt to become the best soldier, he must complete the phases of basic training which include:

- **Obstacle Course** – Player races through the course, scaling walls and clearing the bars as quickly as he can in order to finish in time.
- **Firing Range** – Developing deadly aim, the recruit tries to shoot as many targets as possible within a certain amount of time.
- **Iron Man Race** – Player dodges mines and other obstacles in another test of strength and agility. He must reach a boat and row across the river as swiftly as possible to reach the goal in a race against time.
- **Arm Wrestling** – The player is pitted against his opponent in a match to see who has superior strength and stamina.
- **Fight with Instructor** – Drill sargeant taunts the recruit into a one on one physical confrontation. The player must use his best fighting techniques to defeat his instructor.
- **Chin Ups** – The player must complete these as a penalty for previous failure.

In addition to these steps of basic training, the player must be prepared to face other unknown challenges in the game. Boot Camp is much more than just basic training!
